

# Static Feature Overview:

**"Dynamic Start Page"** with new pictures and videos every time you enter the site, or press **F5**. (so that you get a new sensation every time you enter the site! Your "best picture" can also be added to the picture database and be a part of the randomly created start page )

The **"MONO Planner display window"** shows the closest planned monoski events and ski trips entered by **YOU**. The window is a link to the **PLANNER** page where you can read and learn more about the event (so that you get an advert on what your friends in the monoski community is up to! If you see a skiresort and a date you are interested in, you click on the text and the **PLANNER** page opens up where you can see more details about the event, contact information to the involved persons etc..)

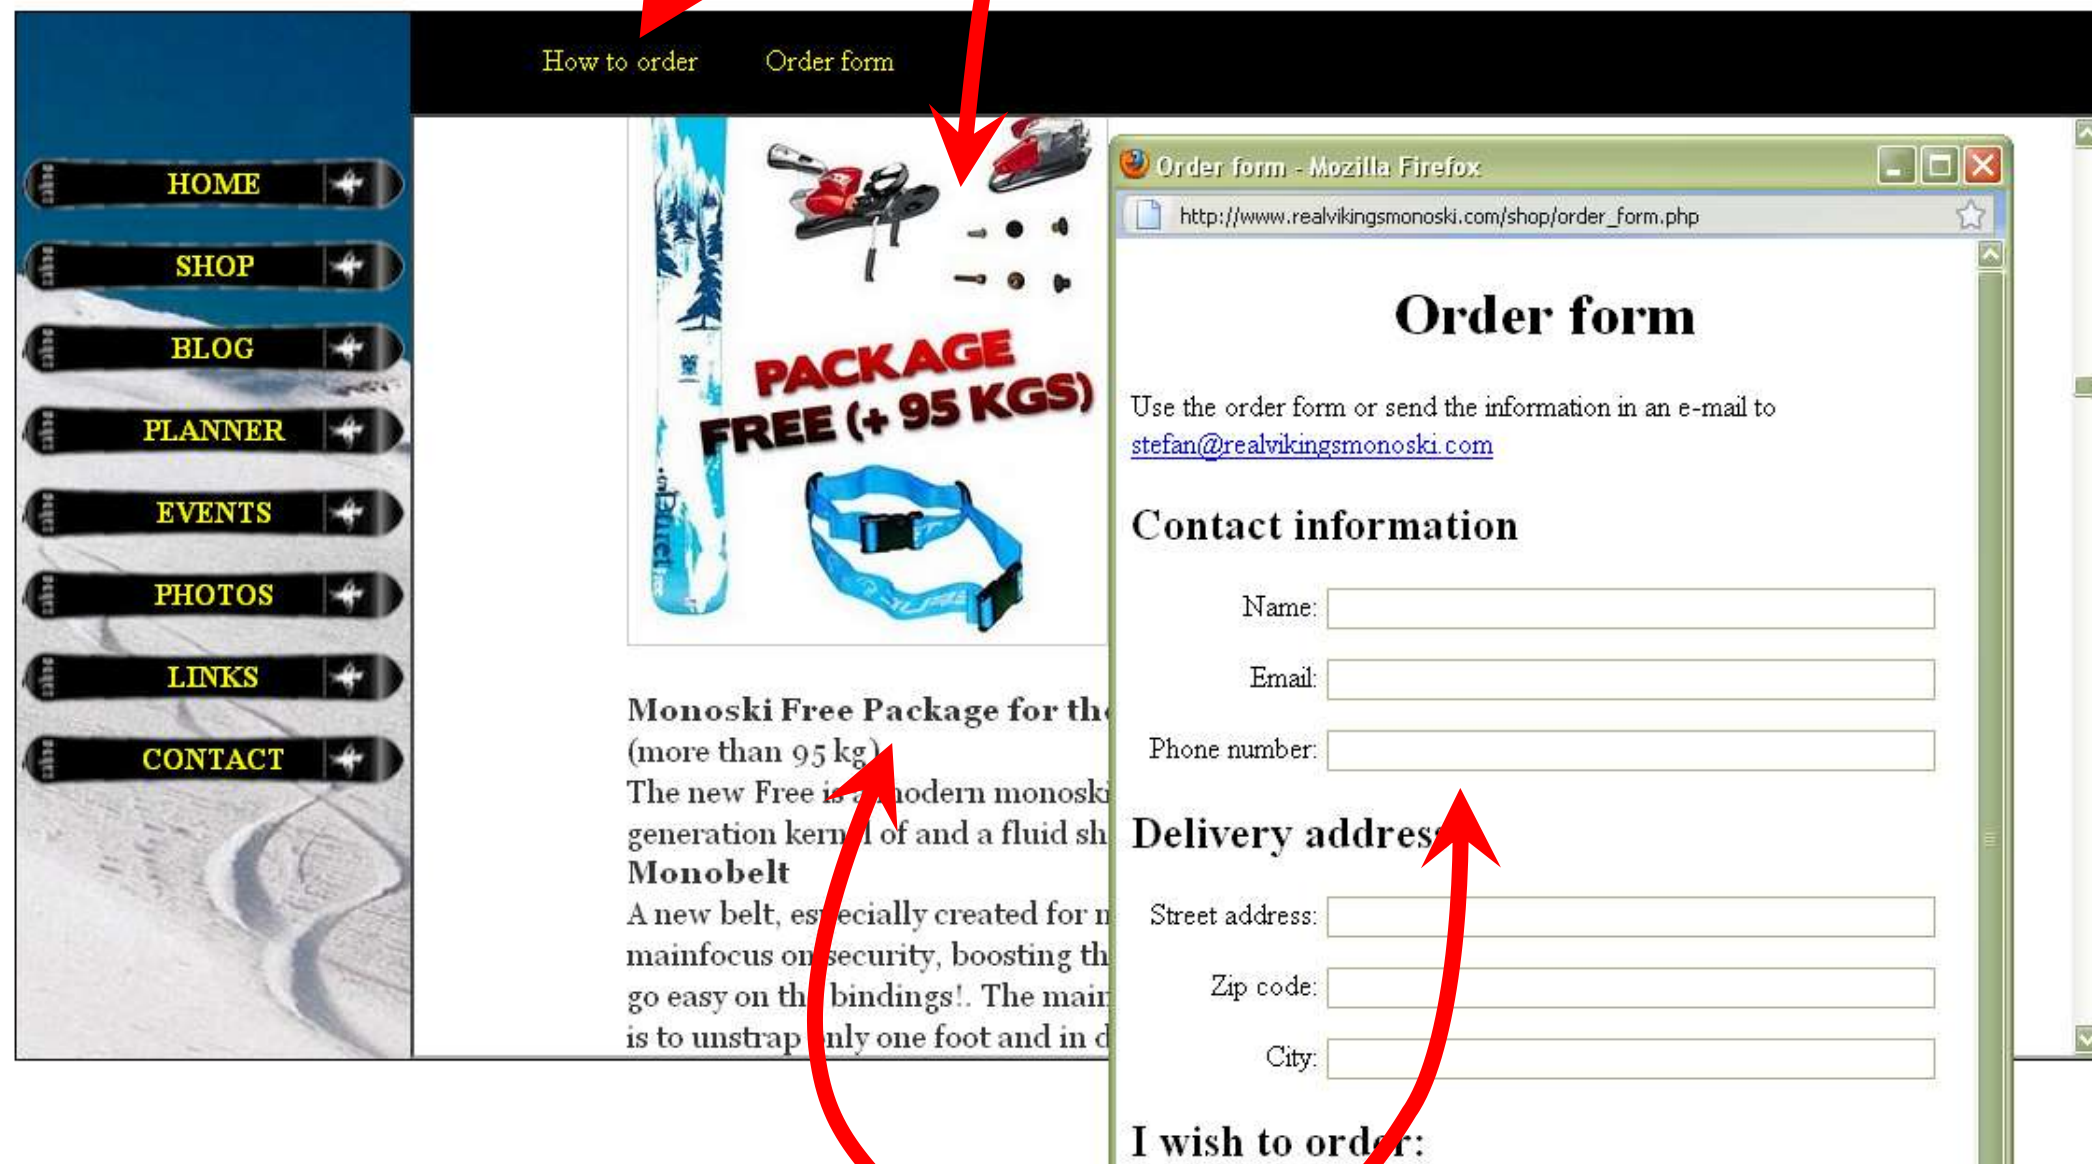

**Links to all 8 areas of interest!** (of course the links are shown as *Esprit de Glisse DURET Monoskis*. The linknames are short to get your attention. Notice the figure 8 monoski tracks in the background picture!)

**The video window presents clips from movies to show our passion!** (so that you can see the mono in action, new styles and riders. Allows everybody to get into the mono-vibe!)

**The "How to Order" pop-up is accessible as a link directly from the black banner area.** (so that you can easily read about the steps in the order process)

**The monoSHOP-blog is integrated in the RealVikingsMonoski site, but is also a stand-alone monoski Blog!** (so that it is accessible via the standard BLOG search engines, From the BLOG the reader can access the RealVikingsMonoski website)

**The Order form opens us a pop-up and can be moved around the screen** (so that you can easily switch between reading about the shop items in the monoSHOP-blog and fill in the order form )

**The Order form enables you to specify the products you want to order. When pressing the "Add Monoski"-button, the information is transferred to the "order summary window" (you can see the full order information in the window and also change the order text directly in the window. You can also add more items in this category, which will then be added to existing order text in the summary window )**

**The Order form enables you to add more items in the specific category (e.g. Monoski) without having to enter all details again (you only have to change some of the input when adding another item to the "order summary window". If a person want to order two types of monoskis, he/she only have to change the "select Monoski field" as the rest of the information is the same).**

**"The quotation banner"** shows different quotations every time you open the window. The quotation banner is present on all windows but the shop and the dynamic start page (When there is a new buzz-word or catch phrase in the monoski community, it will be added to the database of quotations. It makes the page more alive and kicking. Some of the quotations will be in french!)

**The monoBLOG is integrated in the RealVikingsMonoski site, but is also a stand-alone monoski Blog!** (so that it is accessible via the standard BLOG search engines, From the BLOG the reader can then access the RealVikingsMonoski website)

**Start-date and end-date are added using a calendar format** (so that there is no confusion on HOW the dates are written and it also makes it easier to enter the dates as the calendar gives a better overview)

**"The Planner Page" shows details of all the "MONO Planner display window" items** (so that you can get more information about the planned monoski trip/event. The mail and mobile number give you the needed contact information. There is also a possibility to link directly to a created thread at the Monoski Forum at [www.monoski.se](http://www.monoski.se))

The screenshot shows the Monoski website interface. At the top, there is a banner with the text "Monoski the virgin snow as calligraphy pen on paper!". On the left side, there is a navigation menu with buttons for HOME, SHOP, BLOG, PLANNER, EVENTS, PHOTOS, LINKS, and CONTACT. The main content area features a form for creating a new event. The form includes fields for Start date, End date, Ski resort, Name, Mobile, Email, and Comment. A calendar pop-up is shown over the Start date field, displaying the month of March 2010. Below the form is a table listing existing events. Each row in the table includes the Start date, End date, Ski resort, Name, Mobile number, Email address, Comment, and a "View post" link. A red arrow points from the "View post" link in the table to a pop-up window that displays the details of the selected event.

**The MONOevent-blog is integrated in the RealVikingsMonoski site, but is also a stand-alone monoski Blog! It also links to Facebook events pages and more detailed pdf documentation about the events** (so that it is accessible via the standard BLOG search engines, From the BLOG the reader can then access the RealVikingsMonoski website. You as a reader can comment the events and become a follower of the event blog and its feeds)

**The PHOTOS part of the website, shows a lists of links to different RVM events ! The events links open up in a new windows and contain a mix of text and pictures from the specific event***(The link list also gives an overview of all past RVM events documented with pictures and text. Participants usually send in their photos and these may be added to the event documentation. For a more cohesive database of ALL pictures from ALL events, not only RVM-events, there is a french monoski database at: <http://monoski.lateralus.free.fr/>)*
