Situated 250 km north of the Arctic Circle, this is just about as  
exotic as it gets. Nestled between the mighty mountains of the last  
European wilderness, Björkliden is surrounded by breathtaking  
views of Lapland and Lake Torneträsk.

Björkliden is a place of extreme contrasts throughout the year.  
During the winter Björkliden accommodates skiers of all levels.  
We offer shimmering Northern Lights in the skies, high altitudes  
and metre deep natural snow.

**enjoy some of the magic from Peter Rosén's pictures
